

Stainless Steel Multi-Branch Manifold

Features

➤ Quick-assembly and disassembly

Each component can be removed easily by hand for cleaning and autoclaving to prevent biofilms and eliminates sources of contamination.

➤ Convertible funnel adaptor

Convertible funnel adaptor design allows user to fit the desired funnel (reusable or disposable) easily.

➤ Innovative vent valve design

An adjustable vent valve integrated with the pipe can eliminate water hammer phenomenon and help drain out residual waste water.

➤ Quick-Fit hose barb

Detachable hose barb can be connected to either side of the manifold quickly towards the vacuum source.

➤ Individual control valve

Each branch permits individual control.

Applications

- Filtration for microbiology test
- Chemical experiment
- General laboratory filtration
